July 31, 2008

Dear Mr. Brown,

We at the Lee Road Project LLC. are writing this letter to express our sincere appreciation for the job Jim Arpin performed for us and the Formosa Park Group. Through his attention to detail and hard work Jim saved us untold time and money. It would be safe to say that without his help, it is doubtful that we would have been able to identify the true magnitude of all the challenges.

During our rounds of meetings, calls, and emails, Jim worked to fill us in on the critical information that we had overlooked. Without being asked he informed us with reports and memos to justifying the direction we have gone in. He even supplied us with advise on several occasions.

As an expression of our gratitude, we have included a \$1000.00 check which is a small token of our esteem. Please pass this along with our compliments to Jim for a job well done and thank him again.

You've got quite an impressive operation going, your staff is very professional and on top of everything we commend them. Robert, thanks for you friendship.

Sincerely,

Susan Mishaan
